Increase in Spectator Limits

Yesterday, Governor Cooper issued [Executive Order](#) #169 Phase 3 of the COVID-19 orders. We encourage all members to review the document.

The general provisions raise the spectator limit for “fields of play” to 100 spectators (50 per team), not counting players or staff, per field. The document has other limitations based on spectators per square foot, which might apply to unique fields with very limited spectator spaces. Please review and inform your teams accordingly.

All other Version 4 Guidelines, available on the [NCYSA website](#), should continue to be followed regarding game-day masks, distancing, sanitation, etc.

Be safe.
